pH meters, portable

pH tester, Checker, pocket

A low cost simple to use digital pH tester with on/off switch and trimmers for calibration.
An ideal replacement for litmus paper and many times more accurate.
The Checker 1 has a probe small enough to fit into a test tube.
Supplied with batteries and one-year guarantee (probe 6 months).

PH/3500

Technical Specifications

Range/Resolution	0.00 to 14.00 pH x 0.1pH
Accuracy	±0.2 pH

Cat. No.	Code	Description
PH/35002	HI-98103	CHECKER1 Pocket pH meter
Accessories		
PH/35008	HI-77400P	Calibration kit comprising of 5 sachets each of pH7.01 and pH4.01
PH/35010	HI-7061L	Probe cleaning solution 500ml
PH/35012	HI-70300L	Probe storage solution 500ml
PH/35014	HI-1270	Replacement probe for Checker 1

pH/temperature meters, Waterproof pocket

Two waterproof pocket testers with simultaneous display of pH & temperature on a dual level LCD screen. Packed with features normally found in a hand held meter the new design casing floats if dropped in water. Features also include:

- Replaceable pH electrode with a clogging resistant fibre junction.
- Auto calibration at 1 or 2 points with choice of 5 memorised buffers
- Auto temperature compensation
- Auto-off switch and battery check
- Hold facility

Supplied complete with batteries, electrode removal tool and instructions. Two versions available:

PH/3503

Technical Specifications

	HI-98127	HI-98128
Range pH	-2 to 16pH	
°C	0.0 to 60.0°C	
Resolution pH	0.1pH	0.01pH
°C	0.1°C	
Accuracy pH	±0.1pH	±0.02pH
°C	±0.5°C	±0.5°C
Temperature compensation	Automatic	
Calibration	Automatic at 1 or 2 points with two sets of memorised buffers 4.01/7.01/10.01 or 4.01/6.86/9.18	
Dimensions	163 x 40 x 26mm	
Weight	100g	

Cat. No.	Code	Description
PH/35030	HI-98127	Pocket pH Meter to 0.1pH
PH/35032	HI-98128	Pocket pH Meter to 0.01pH
Accessories		
PH/35034	HI-73127	Replacement pH electrode
PH/35008	HI-77400P	5 sachets each of pH4.01 & pH7.01 buffer solution
