

## Culture tubes, Pyrex

**PYREX®**

These screw neck tubes, supplied with phenolic cap having an inert PTFE liner and rubber disc, are ideal for culture work. The caps are resistant to repeated dry heat and steam sterilisation cycles (121°C for two hours).

## IVF cell culture dish, Corning

Treated for optimal cell attachment. Sterilized by gamma radiation and certified non pyrogenic. For research use only. 20mm diameter centre well holds 3ml of medium, whilst outer well holds 10ml of medium.

| Cat. No. | Code | Size      | Inner Packs | Case Qty |
|----------|------|-----------|-------------|----------|
| TC/46002 | 3260 | 60 x 15mm | 20          | 500      |

TC/46002

## Cell culture dishes, Corning

Manufactured from optically clear virgin polystyrene. Treated for optimal cell attachment. Sterilized by gamma radiation and certified non pyrogenic. Stacking beads to aid handling. Supplied with vents to provide consistent gas exchange.
